

Student Made Test

Suggested Year Levels: Middle School – High School

When to use: End of unit

Background: Let your students develop a revision test.

Materials:

Activities / Procedures

- Ask students to individually write 5 questions about the topic
- In groups of 4, students choose their best 10 questions
- As a whole class – each group reads out their questions. The teacher and class organise each question under common topics or sub-headings
- Teacher has a discussion about the questions
 - Examples of common test questions
 - Discuss weighting of marks based on the type of questions
 - Time it would take to answer specific questions in the test
- Use the questions for a review test that students can either complete individually or in groups.
